

Tasting List

We designed our wine program to assist in discovering your true passion for wine by providing a broad and diverse selection of wines, including over 85 wines available by the glass and half glass (just ask). Our passion inspired us to employ technology to assure that all our wines, whether by the glass or bottle, are delivered fresh and at the proper temperature. This allows us to offer a broad range of wines, including the areas largest selection of sparkling wines by the glass. Although we offer many high end wines, rest assured you are receiving a value for you choice. We strive to select high quality wines relative to their price. Even Wine Spectator labeled us 'Inexpensive' three years running.

Flight

Three 3oz pours

Begin your adventure with our wine flights. Flights are a sampling of half glass pours of wine centered on a theme: a grape, a style of wine, or a region. We designed these flights as a way to experience broad categories of wine and discover the subtle and sometimes profound differences that can be found.

X-Reims

30

- NV Piper Heidsieck Brut, Reims, France
- NV Louis Roederer Brut Premier, Reims, France
- NV Veuve Clicquot Ponsardin 'Yellow Label' Brut, Reims, France

- NV Gloria Ferrer Cuvee Va de Vi, Sonoma, California
- 2005 Iron Horse 'Wedding Cuvee,' Green Valley, Sonoma, California
- NV Domaine Chandon Brut Reserve Pinot Noir, Napa, California

How to Taste Wine

We often hear "How do I learn more about wine?" The easy answer: "taste it!" Serving temperature, proper stemware, and aerating the wine are all important factors in the tasting experience. Having the wine at the proper temperature allows the wine to express itself, both on the palate and in the aroma. Stemware should be clear to appreciate the color and clarity of the wine, and large enough to swirl the wine without spilling it. Swirling the wine in the glass (vigorously for young wines, more gently for older vintages) releases the aromas which not only contributes greatly to the taste of the wine but helps you remember the wine (our sense of smell is most closely tied to memory). So go ahead, stick your nose in the glass, we won't stare.

Serving Temperature

The correct serving temperature for wine is important. We maintain the following serving temperatures for our wines by the glass: Red wines at 60-65 degrees, White wines at 45-50 degrees, and Sparkling at 40-45 degrees

For our wines by the bottle program, our red wines are maintained at cellar temperatures (60 degrees) while our white and sparkling wines are held at 50 degrees in our climate controlled wine cabinets. When ordered we will place your champagne on ice to chill it to the proper temperature and we recommend letting your red wine warm slightly before enjoying.

Preserving Open Wine

Even at home wine can be kept fresh for up to several days. The simplest method is to replace the cork and put the bottle in the refrigerator, where darkness and the cool temperature work to keep the wine fresh. We go one step further. We use our state of the art Le Verre de Vin wine preservation system to vacuum seal our open still wines and to re-pressurize our open sparkling wine with carbon dioxide. Our wines are always stored at the proper temperature to further protect their freshness. Of course we never seem to keep open wine around long enough to worry about this (even at home).
